

The Army Transport Association Inc (ATA) is a non-profit association formed in March 2003 for members of RAASC, RAE (TN), RACT. It consists of retired and current serving members of Royal Australian Transport Corps (RACT).

The purpose of the Army Transport Association is to promote communication and genuine cooperative fellowship between past and present members, based on their common service.

Association has luncheons for Corps Birthday, Xmas among several others in Brisbane and Sunshine coast. A monthly newsletter emailed to members keeps them up to date on upcoming events and current articles of past and current military interest.

We have members with excess of forty years' service, it's important for these retired members to network and pass their experiences on to current serving members creating a bond of friendship and mental wellbeing.

We support the family throughout their dark times and foster that through regular gatherings and staging functions throughout the year.

Graeme Beuth

Secretary

Army Transport Association
